

COLLECTIVE IMPACT REPORT CARD

COCKBURN - JULY TO DECEMBER 2020

Australian Early Development Census 2018 results showed 16.9% of 5 year olds in Cockburn were developmentally vulnerable.

We mapped our key areas of work and against community aspiration and aligned these to ARACY's nest, resulting in 6 priority areas that children require to thrive.

Participating

Identity and culture

Health

JULY TO DECEMBER 2020

Received education & support delivered through 45 courses totalling 154 hours.

442 regular activities & groups with a combined 944 hours of engagement.

65 short workshops totalling 81 hours of information to parents and children.

AS A RESULT OF THE SUPPORT RECEIVED PARENTS IN COCKBURN REPORTED:

91% Feel more supported

89% More Connected to the Community

87% **Improved Skills**

86% More Confident

76% Improved Knowledge

This report card is a collated summary from Joint Leadership partners answering the broad question "How many different families used these types of services during this period". The focus is activities that relate most directly to the overarching CCK goals and partnerships. Not all services and programs delivered by the provider are included and the data may not align with other activity reports of each individual service.

COCKBURN CASE STUDIES JULY TO DECEMBER 2020

MEERILINGA PARENTING SERVICE (MPS)

The reporting period July to December 2020 relates to the period when MPS transitioned from 100% online delivery (late March to June 2020 – due to COVID-19 restrictions) to mixed delivery ie face to face delivery (particularly for multi-week courses) and online delivery.

Over the reporting period we observed a number of trends including the following:

- An increase in people seeking one on one support
- An increase in the number of parents with complex mental health and family issues
- Parents disclosing they were feeling "pandemic fatigue"
- Parents saying that they felt more connected with their children as COVID_19 had "forced" them to reconnect
- Online delivery often saw one parent enrol but often both parents would attend and participate
- We were able to work with parents in different locations. For example, one family were seperated due to COVID (mother in Perth and the Dad in Melbourne). They were both able to participate in our online multiweek course. We also had 2 FIFO parents who were able to participate with their partners in online workshops
- An increase in parents needing to attend Circle of Security Parenting courses as they had been mandated by Family Law Court. This puts increased pressure on funded parenting services.

CELBRATE CULTURE COCKBURN

International cuisine, multicultural performances, live music and children's cultural activities transformed the CRC Cockburn into a cultural hub on Sunday 1 November at the Celebrating Culture in Cockburn event. Families from across Cockburn took in sights, sounds and tastes from around the globe as they basked in the Cockburn community spirit and celebrated the many cultures that make up the vibrant Cockburn community.

"This event enabled local community groups and children to showcase their cultural heritage." said Jane Miller Partnership Director at Connecting Community for Kids. "It was amazing to get the community together and help them form bonds and friendships, especially due to the social isolation many are feeling during 2020, with families unable to travel."

Kids Go Wild is a series of outdoor discovery activities for children. Events are held monthly and include an exploratory walk, nature-based craft activity and shared morning tea. Parents and children have enjoyed finding new playgrounds, parks and open spaces. Many of the parents that attend are experiencing social isolation, with family unable to visit Perth due to COVID.
